Lutterworth Golf Club: Rebuilding Confidence with Golf Accountancy Matters

Lutterworth Golf Club, a welcoming members' club in the heart of Leicestershire, has long been a fixture of the local sporting community. But following a devastating clubhouse fire four years ago, the opening of a brand-new facility in May 2024 presented both opportunity and challenge. Effectively starting afresh, the leadership team faced the twin pressures of ensuring the clubhouse's success while rebuilding strong financial foundations.

Golf Accountancy Matters stepped in during April 2025. Within weeks, Sandy and Nicky from the team were working alongside the club, quickly demonstrating why their sector-specific expertise is so valuable. By introducing Xero and Datamolino, and building on the Intelligent Golf system adopted by the club in 2019, they delivered accurate, timely accounts and ensured monthly meetings provided clarity for decision-making.

What impressed the club's leadership most was the firm's deep understanding of golf club finance. From applying best practice to bar tabs and buggy rentals through to navigating the complexities of partial VAT, Golf Accountancy Matters provided reassurance and technical know-how.

Reflecting on the partnership, the club described them as a "life saver", praising Sandy and Nicky's approachable style, responsiveness, and willingness to go above and beyond: "We can call them any time, and they always deliver."

The return on investment of the service has been invaluable. For a club still finding its commercial rhythm with a new clubhouse and an increased emphasis on engaging the wider community, having accurate accounts and trusted advisors has made the difference between optimistic guesswork and confident, informed decisions.

Today, Lutterworth Golf Club's finance function is stable, transparent, and designed for the future. With robust systems in place and expert advisors at their side, the leadership team can concentrate on growing the clubhouse's role as both a sporting and social hub - secure in the knowledge that the numbers behind it all are 100% reliable.
